EDUCATION

University of Puerto Rico, Mayagüez

B.S.B.A. in Computerized Information Systems

– **Relevant Coursework:** Analysis & Design of Information Systems, Hardware & Software Technologies in IS, Data Communications and Networking, Database Development, Programming Fundamentals for Business, Computer Competencies for Business Decision Making, Project Management, Innovation & Entrepreneurship

Mayagüez, PR
Graduating July 2026

EXPERIENCE

University of Puerto Rico, Mayagüez

Computerized Information Systems / Programming Tutor

– Delivered group and individual instruction in **C#** using **Visual Studio** and **Windows Forms**, reinforcing object-oriented architecture and troubleshooting **hardware/software systems**.

– Taught development of **GUIs**, creation of **DFDs**, database design and **SQL concepts**, and debugging of structured logic.

– Guided students through advanced **Excel** functions, emphasizing data organization and visualization for business analytics.

Aug 2025 – Jun 2026
Mayagüez, PR

ACM–BA (Association for Computing Machinery – B.A., UPRM)

Community & Content Manager

– Managed digital **content calendars**, coordinated executive presentations, and designed member onboarding materials.

– Grew Instagram following by **18%** over 7 months by analyzing platform metrics, identifying content gaps, and adjusting strategy, reaching up to **7,000 views** per post.

– Conducted member interviews and improved **stakeholder communication** to streamline onboarding across a **~37-member** active chapter.

Aug 2025 – Jun 2026
Mayagüez, PR

Material Advantage UPRM Chapter

Webmaster Lead & Marketing Lead

– Identified a gap in chapter digital presence and **initiated a full organizational rebrand** — redesigning the visual identity and recruiting a **7-person marketing team** through 6 candidate interviews, including 3 designers, 3 webmasters (**front-end, back-end, full-stack**), and an activities coordinator.

– Coordinated weekly project check-ins, aligning team responsibilities, **UI/UX** design goals, and stakeholder requirements.

– Led **Figma** prototyping, **WordPress** site planning, and plugin feasibility research; produced design systems used in subsequent capstone development.

Feb 2023 – May 2025
Mayagüez, PR

PROJECTS

ACM–BA Institutional Website (Capstone) | WordPress, WPBakery, Figma, HTML/CSS/JS | uprm.edu/acmba

– Served as **Project Manager** and **Front-End Lead** across a full **SDLC cycle** — from stakeholder interviews and **requirements gathering** through Figma wireframes, the WordPress/WPBakery build, and CTI institutional approval — among fewer than 10 student-association sites on the uprm.edu domain.

– Implemented responsive layouts across desktop, tablet, and mobile; integrated **iFrames**, **ICS Calendar**, **Google Forms** via Shadow Forms plugin, **Google Maps**, and social media embeds; managed plugin approval workflow with institutional IT (CTI).

– Executed a formal **QA testing phase** with documented test cases, multi-device/browser compatibility testing, and bug tracking; produced technical and administrative user manuals and led a hands-on training session for the incoming chapter board.

Dynamic Lyrical Audio Visualizer | C++, OpenFrameworks, Visual Studio Code

– Developed an **OpenFrameworks/C++** music visualizer with dynamic graphics and color modes featuring millisecond-level lyric synchronization.

– Applied object-oriented class structures and memory management to support precise event timing and audio-visual data synchronization.

CAHSI Sustainability Hackathon – HogarMío App (Sponsored by Microsoft) | UX/UI Design, Project Management

– Managed a cross-disciplinary team as **project manager**, assigning roles by skill coverage, directing research, and shaping the grant-eligibility filtering concept.

– Designed a **UX/UI** prototype prioritizing intuitive candidate navigation and clear eligibility flow for practical community impact; achieved **4th place nationally**.

TECHNICAL SKILLS

- **Programming & Databases:** C#, C++, Python, SQL, HeidiSQL, JavaScript, Object-Oriented Programming
- **Development Tools:** Visual Studio, Visual Studio Code, OpenFrameworks, GoDaddy
- **Web Development & UI/UX:** HTML, CSS, WordPress, WPBakery, Figma, **Canva**, Responsive Design, Wireframing, iFrames, Form Integration, Microsoft Forms
- **Data & Business Technology:** MS Excel, Tableau, MS Access, MS Project, MS Suite, Data Visualization, Stakeholder Analysis, Requirements Gathering, Agile
- **IT & Systems:** Networking Fundamentals, Basic Cable Structuring, Hardware Components, Operating Systems, PowerShell
- **Languages:** Spanish (Native), English (Professional Working Proficiency)

CERTIFICATIONS

- **Google Project Management Certificate** (Completed – Feb 2024)
- **Financial Statement and Ratio Analysis for Accountants** – University of Illinois (Completed – 2025)
- **Cisco Academy Computer Hardware Basics Badge** (Completed – Jan 2025)
- **Cisco Academy Operating Systems Basics Badge** (Completed – Mar 2025)
